

21.05.2020 HT's Daily Update for Families – Science Detectives, Wee Famille Reminder and P7 Transition Meeting reminder

★ Good morning all.

★ I hope you had a lovely day enjoying the sunshine yesterday.

★ Just a quick update this morning.

★ In an effort to ensure variety in the activity ideas I share with you, today I have a Science lesson link. One of our parent's sister is a high school science teacher and has created a YouTube channel with lots of fun, practical and creative experiments for you to try out at home. The link is <https://www.youtube.com/channel/UCZOtG-vKuDMJhhzWtSEtzgQ> I'd love to see footage or photos of you trying out the experiments and finding out what happens!

★ Thank you to all of you taking part in the Bear Hunt for our new Primary One children. Lovely to see some many furry friends peeking out of windows around my local area. Please feel free to tweet any you see on your walk to share on our Twitter page.

★ As a reminder next week is our 'Wee Famille' week with a focus on all things French. The daily challenges will all be linked to this theme and we are really looking forward to seeing how you explore another language and culture.

★ For all Primary 7 families, I am looking forward to seeing you at our Transition planning meeting tonight at half past 5. I'll resend the details to join so as many of you can take part as possible.

★ I hope you all have a good day today and remind yourself of how well you are doing at this challenging time. We all have good days and not so good days, so just take each day as it comes and do what you can.

★ We are here for you so if there is anything you need, please get in touch through our admin account.

★ Take care, keep well and stay in touch.
