

25.05.2020 HT's Daily Update for families – Wee Famille, Ed Psyc Support and Progress Reports

Good morning all.

I hope you are well and have had a lovely, if somewhat blustery, weekend.

This week is our Wee Famille week, focussing on French language and culture. We really hope that all of you enjoy the activities that have been prepared for you and look forward to seeing what you have been exploring. Please either email the admin account or send us a Tweet so we can share your learning. Merci!

Health and well being continue to be a real focus for us during lock down so I have attached a couple of really useful documents to support you with this. These have been shared by our educational psychologist and provide some really useful advice about being a home during school closure and coping with loss.

Your Senior Leadership Team are working really hard to finalise the Pupil Progress reports which our teachers have written and we will be emailing this out to you on Friday 29th of May. We will remind you during the week to look out for these coming to the email address we have for you on our system. Please let us know if you would like us to send them to a different account from the one we have.

I hope you have a good start to the week and look forward to seeing the learning that you do in the coming days.

As ever, we are here for you so please keep in touch through our usual channels.

Take care, keep well and stay in touch.

Anna
